Summary

Full Stack Developer specializing in MERN stack with experience building scalable web applications, REST APIs, and responsive UI systems. Developed and deployed production-level applications with authentication, database optimization, and real-time features. Strong foundation in DSA and backend system design.

Work Experience

Full Stack Web Developer Intern | Vigomerge Pvt Ltd |
Remote Jan 2026 – March 2026 (3 Months)

- Developed and deployed full-stack MERN applications with responsive UI, improving cross-browser compatibility and mobile performance.
- Built dynamic UI components using React.js, Tailwind CSS, and Framer Motion, enhancing user engagement and interaction.
- Designed and optimized REST APIs, reducing server response time and improving application performance.
- Managed relational and NoSQL databases (MySQL, PostgreSQL, MongoDB), ensuring efficient data handling and integrity.
- Collaborated using Git/GitHub, contributing to code reviews and maintaining clean, scalable code architecture.
- Translated business requirements into scalable technical solutions for CRM dashboards and web platforms.

Education

BSc (pursuing) in last year 8.19 CGPA 2023 to 2026

Project

1- Voyanza | Full-Stack Platform

- Developed and deployed a full-stack hospitality platform from scratch using the MERN stack, allowing users to list and rent private properties.
- Implemented secure JWT-based Authentication and Authorization to ensure data privacy and role-based access.
- Built a dynamic Review & Rating system (1–5 stars) with custom logic that restricts deletion rights exclusively to the content creator.
- Engineered robust RESTful APIs and integrated a scalable database architecture to handle property listings and user interactions efficiently.

Tech Stack:- MongoDB, Express.js, React.js, Node.js, Tailwind CSS.

Project URL :- <https://voyanza.onrender.com>

Github Repo:- <https://github.com/Pawan072/Voyanza.git>

Note: Optimized with only for Laptop PC or MacOS

2- Northern Virginia Brittany Club

Northern Virginia Brittany Club Website

- Developed responsive UI using React.js and Tailwind CSS with modern design and animations.
- Improved navigation flow and user experience across multiple devices.
- Optimized frontend performance and ensured cross-device compatibility.
- Deployed project using Netlify for public access.

Tech Stack:- ("Developed using React.js and Tailwind CSS.")

Project URL:- <https://northernvirginia.netlify.app/>

Github Repo:- <https://github.com/Pawan072/NVBC-USA--main>

Note : Optimized for all cross multiple device

Technical Skills

- Languages: JavaScript, Java
- Frontend: React.js, HTML, CSS, Tailwind CSS
- Backend: Node.js, [Express.js](#)

- Databases: MongoDB, MySQL, PostgreSQL
- Tools: Git, GitHub, Postman, VS Code
- Concepts: REST APIs, MVC Architecture, Authentication, DSA
